

NOW'S THE TIME... TO TAKE THE PLEDGE.

This fall, as millions of Americans pause and reflect on the events of 9/11, the Safe America Foundation invites you to join in helping be prepared to handle emergencies by practicing a 'drill' at home or work.

Pledge now to be prepared, not scared and take the Safe America **PLEDGE TO DRILL**.

- Make a family plan
- Develop an emergency kit
- Practice a simple family drill

You can get more information at www.safeamericaprepared.org and learn how to 'text' family members on a cell phone for convenience and speed while expanding communication resources that, in an emergency, would help you protect your family.

Businesses are also encouraged to take the pledge...and participate in a drill... whether to shelter-in-place, evacuate, or send a text message.

To learn more about **PLEDGE TO DRILL**, or '9/11 Drill Down for Safety', contact the Safe America Foundation at pledge@safeamerica.org or call 770-973-7233.
